Absolutely... Thank you!! I'm always happy to help where I can.

Phil

Phil,

Have been wanting to come up and talk to you but schedule seems to always get in the way. Just wanted to say I really appreciated all help on the detection limits/sampling plan and working with the locals, state and ATSDR. We don't always work so closely with the health department and so sometimes folks aren't aware how much coordination and information sharing it takes. Again, thank you for the help and support – it was appreciated!
